Chickpea Microgreen Mega Tray - MIC67B

One of the earliest cultivated legumes, chickpeas are a great source of protein. Microgreen chickpea is a sprouted tendril with the same signature flavour and texture as the pulse.

Flavour: Floury, nutty and crisp flavour.

Uses: Popular in Indian cuisine, Microgreen Chickpea tendrils add substance to salads, vegetable and meat dishes. They combine well with asparagus and are a great garnish for a range of savoury meals.

Appearance: Sprouted chickpeas with small feathery leaves on either side of the stem

Storage: To maintain freshness, store between 1-7 degrees C. Microgreen Chickpea should be consumed within 10 days of packing. Rinse lightly under cold clean water before use.

Health Benefits: Microgreen Chickpea contains zinc, folate, protein, calcium and iron.

Product Sizes: Mega Tray (half seedling tray)

Availability: Flowerdale Farm's Chickpea is cultivated in hydroponic conditions and is available year round.

Box Dimensions:
